ROZIBOY AHMADALIYEV

COMPUTER ENGINEERING STUDENT · ASPIRING CYBERSECURITY ENGINEER

Seongnam, South Korea | roziboyahmadaliyev1310@gmail.com
GitHub: github.com/roziboyahmadaliyev1310-sy

PROFESSIONAL SUMMARY

Computer Engineering student at Gachon University with a developing foundation in programming and web technologies and a strong career interest in cybersecurity. Practising through independent coding work and maintaining a GitHub portfolio of 11 repositories. Interested in understanding how applications and computer systems work, identifying technical risks, and learning how digital services can be protected. Seeking a cybersecurity internship or entry-level opportunity to learn from experienced teams, apply classroom knowledge, and build practical industry experience.

EDUCATION

Gachon University | **South Korea**

Bachelor's-level studies in Computer Engineering | Second-year student

- Academic progress: approximately 70%, as reported.
- Continuing to develop a foundation in computing, programming, and software technologies through university study and independent practice.

SELECTED PROJECTS & GITHUB PORTFOLIO

Weather Forecast | **Independent project**
github.com/roziboyahmadaliyev1310-sy/weather-forecast

- A personal software project included in the public GitHub portfolio. Provides an example of independent development and practical coding activity.

Test — Programming Repository | **Independent repository**
github.com/roziboyahmadaliyev1310-sy/test

- A coding repository used as part of ongoing programming practice and technical learning.

- **Additional development work:** GitHub profile contains 11 repositories, documenting continued independent coding and learning. View all repositories.

TECHNICAL SKILLS

Programming	Python, Java, JavaScript, PHP
Web technologies	HTML5, CSS3
Tools	Git, GitHub, Visual Studio Code
Foundations	Programming fundamentals, code reading, debugging, logical problem-solving
Cybersecurity focus	Information security, network security, secure systems — areas of career learning and development

CAREER OBJECTIVE

To begin a career in cybersecurity, strengthen practical knowledge of information security, and contribute to work that helps protect computer systems, networks, and digital information. Eager to take on learning opportunities, collaborate with a technical team, and grow through feedback and hands-on tasks.

ADDITIONAL INFORMATION

Languages

Uzbek — Native
English — Advanced
Korean — Pre-Intermediate

Professional strengths

Communication · Teamwork · Analytical thinking · Adaptability · Time management · Self-directed learning

Career interests

Cybersecurity · Information security · Network and systems security · Software development

Personal interests

Football · Technology · Video games · Learning new technologies

"Curious by nature, driven by technology, and committed to building a more secure digital future."
